## SPEC® SOFTWARE BETA TEST LICENSE

Read the terms and conditions of this Agreement carefully before downloading or opening the package containing the SPEC product or any accompanying documentation (collectively, “the Materials”). Except where explicitly superseded by wording in the attached beta license, this Agreement represents the entire Agreement between you and SPEC concerning the Materials and supersedes any prior proposal, representation or understanding between the parties.

Use and Re-Export of SPEC’s software is subject to the United States Export Control Administration regulations. The software may not be used by unlicensed persons or entities and may not be re-exported to another country. See Export Assurance (Paragraph J) of this license.

By downloading the Materials or opening the package containing the Materials, you are accepting and agreeing to the terms of this Agreement. If you are not willing to be bound by these terms, you should promptly cease downloading the Materials and remove the Materials from your system.

**A. Grant.** SPEC agrees to grant, and USER agrees to accept a nontransferable and nonexclusive license to use and modify the Materials, subject to the restrictions and conditions set forth below and in any accompanying product specific license.

**B. Copies and Use.** Licensee may make copies of the original of the Materials for use within Licensee’s company only and for its own archival use, without modification or merger with other software. Licensee may not permit any third party to use or copy the original or any copy thereof.

**C. Scope of Use.** The Materials may be used only for porting and evaluation and feedback purposes.

**D. Other Conditions and Restrictions.** Licensee agrees without exception to destroy all BETA-TEST copies of the Materials at the end of the Beta Program (at which time this License shall terminate) and will make no public results comparison or statements or publish results or data derived from the Materials, e.g., trade-press, conferences, seminars, tradeshow booth handouts, computer network electronic conferences or electronic bulletin boards.

**E. Promotion.** SPEC will not, without the prior written consent of Licensee (i) use in advertising, publicity, marketing or other promotional materials or activities, the name, trade name, trademark, trade device, service mark or symbol, or any abbreviation, contraction or simulation thereof, of Licensee, its affiliates or their respective partners or employees, or (ii) represent, directly or indirectly, that its products have been approved or endorsed by Licensee.

**F. Feedback.** Licensee is encouraged to provide feedback to SPEC on the Materials on:

1. Porting and execution experiences,
2. Run rule suggestions,
3. Load critique,
4. Measurement critique,
5. Bug fixes and
6. Any other useful suggestions

The Licensee will be notified if there are any other versions that are to be included in the BETA Test Agreement. Licensee further agrees to the following:

**THE FOLLOWING NOTICE MUST APPEAR UNALTERED IN ALL BETA RESULTS:**

**SOFTWARE USAGE GUIDELINE NOTICE**

This PRELIMINARY version of the Materials is to be used for porting and evaluation purposes only.

SPEC prohibits PUBLIC comparisons based on the Materials results or derived data, since the tool will change before final SPEC adoption. Thus, final Materials results will differ from BETA results.

**G. Disclaimer of Warranties. SPEC MAKES NO WARRANTIES WHATSOEVER, EXPRESSED, OR IMPLIED, RELATING TO THE SALE, OR USE OF PERFORMANCE OF THE MATERIALS, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE, AND ALL SUCH WARRANTIES ARE HEREBY DISCLAIMED AND EXCLUDED BY SPEC.**

**LICENSEE RECOGNIZES THAT THE PRODUCTS ARE THE RESULT OF A COOPERATIVE, NON-PROFIT EFFORT AND THAT SPEC DOES NOT CONDUCT A TYPICAL BUSINESS. LICENSEE ACCEPTS THE MATERIALS "AS IS" AND WITHOUT ANY WARRANTY, EXPRESS OR IMPLIED.**

**H. Limitation of Liability.** SPEC assumes no liability with respect to the Materials, including liability for infringement of intellectual property rights, negligence, or any other liability.

SPEC is not aware of any infringement of copyright or patent that may result from its transfer to Licensee of the Materials. If Licensee receives any notice of infringement, such notice shall be immediately communicated to SPEC who will take immediate action to evaluate the claim and, if practicable, modify the Materials as necessary to avoid infringement. Licensee waives any claim against SPEC in the event of such infringement.

STANDARD PERFORMANCE EVALUATION CORPORATION

---

In no event will SPEC be liable for any direct, special, incidental, or consequential damages arising out of or in connection with this Agreement, including the transfer, use or performance of the Materials, even if SPEC shall have knowledge of the possibility of such potential.

**I. Governing Law.** This Agreement shall be construed and governed in accordance with the laws of the State of California. If any term of this Agreement is declared void or not enforceable by any competent court of jurisdiction, all other terms shall remain in effect.

**J. Export Assurance.** Use and re-export of SPEC's software and related technical information is subject to the Export Administration Regulations (EAR) of the United States Department of Commerce. USER hereby agrees that USER (a) assumes responsibility for compliance with the EAR in its use of the software and technical information, and (b) will not export, re-export, or otherwise disclose directly or indirectly, the software, technical data, or any direct product of the software or technical data in violation of the EAR.

**K. No Waiver.** The failure of either party to enforce any term herein or to take action in the event of any violation of these terms shall not be deemed a waiver by that party as to the subsequent enforcement of any rights.

**L. Indemnity.** USER agrees to indemnify and hold SPEC harmless from any claims, expenses, or liabilities caused by USER's use of the Materials or by USER's publication or use of data arising from its use of the Materials.
